Coding Club Week 1

Code: Giving instructions to a computer in a way it understands.

Skills/Learned Practiced:

- **Mistakes are okay! This is how we learn!** 😁
- **Decomposition:** Breaking a big problem down into smaller problems and solving all of the little problems until all the big problems are solved.
- **Using repeat loops to look for patterns helps to save space in the coding workspace and makes things faster/easier.**

Code.org Minecraft Adventure

https://studio.code.org/s/mc/lessons/1/levels/1

Through our Story Go Away Big Green Monster, We learned:

1. **Algorithm:** step by step directions in order to complete a task
2. **Sequence:** the order something happens
