

# Coding Club Week 3

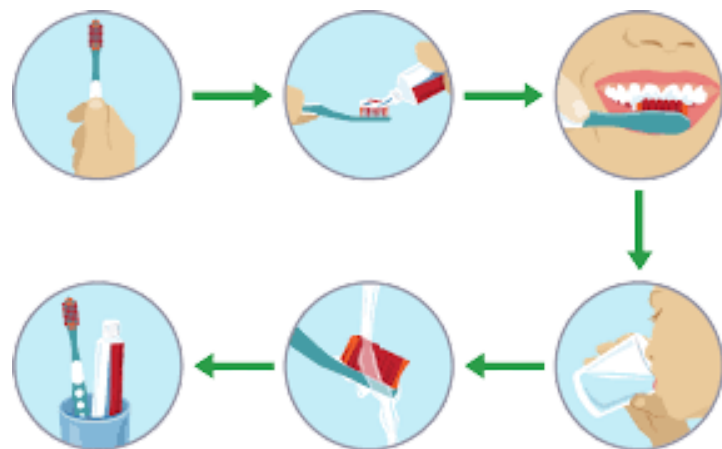

We worked in partners- one was the computer programmer who wrote the algorithm on how to build a certain cup tower and the other was the "robot" who followed the directions to build the cup tower!

## Algorithms!

We do these all the time! They are step by step directions in order to complete a task or goal. They can be pictures or words. Sometimes we complete an algorithm without thinking about it, like brushing our teeth. Following a recipe is an algorithm!

**DRAGON  
BLAST!**
