

Coding Club Day 4

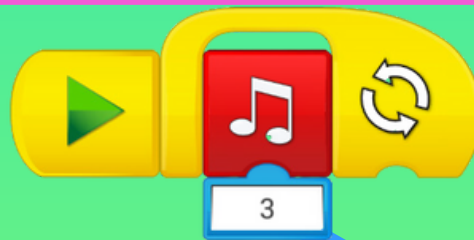

From Young Frog
To Adult Frog

Students followed an Algorithm (step by step instructions in order to complete a task) to build the Young Frog. Then were able to be creative by adding on leftover Lego bricks to form their Adult Frog! The Adult Frogs were coded to hop over to different lily pads!

Hi! It is me- the fly! See that green play button? It is called an event! It starts a line of code! This code will play a sound forever!
