# Coding Club Day 4

We worked together to find the secret path through the maze! Some of the tiles were "safe" and some were not. It was a race to see how fast we could do it!

Students followed an Algorithm (step by step instructions in order to complete a task) to build the Riley Rover. Students were able to add either the cargo delivery attachment or the gripper attachment! The rovers completed in various challenges!

HELLO RUBY
Adventures in Coding

The world's most whimsical way to learn about COMPUTERS, PROGRAMMING, and TECHNOLOGY

ACTIVITIES INCLUDED for all future coders

Linda Liukas

Hi! I am the Riley Rover! I enjoyed working on the challenges with you!
