

# Coding Club Week 9

if  then

if  then

## Conditionals!

These are lines of code that make a decision! If a robot was coded to stop when it saw the color red, it would only stop if it saw red. Conditionals are usually phrased in an IF/THEN statement. IF the robot sees red, THEN it should stop otherwise it will keep driving. We use conditionals in our lives too! IF it is raining, THEN bring an umbrella!

IF you are coming to Coding Club, THEN I am excited to see you!

We made a "Try To Catch Me" Game on Scratch Jr!  
IF you tap on the character, THEN you win!

All resources from the semester can be found by scanning the QR Code or at [bit.ly/3YCbcG4](https://bit.ly/3YCbcG4)
